## **SUBMISSION OF MEDICAL CERTIFICATES AND LICENSES**

This year, we've entrusted the management of supporting documents to Dokeop, a document management platform designed to make your life easier when registering for sporting competitions and/or taking out a club license.

### **How does it work?**

You will no longer be asked to provide a medical certificate or a copy of your license when you register online for an event.

1/ Once you have registered for the event, you will receive an email from Dokeop inviting you to submit your document on its platform.

Please note: the email from Dokeop is sent to the email address you used to register for the event. Don't forget to check your spam folder. At any time, you can receive a new document submission link from the email address you used to register for the event. Simply go to the Dokeop home page (click on "submit a document") or directly to the link renewal page.

2/ Once your document has been checked, Dokeop will inform us of its status (valid / refused / awaiting document / awaiting validation) so that we can update and, if necessary, finalize your registration.

Please note: Creating a Dokeop member account is not mandatory to submit your document. However, we advise you to do so if you wish to benefit from all the advantages (recognition of your document for future registrations / secure storage / reminder before expiration / personalized dashboard).

### **Medical certificate template**

Use Dokeop's medical certificate template generator to guarantee validation of your supporting document for any type of sporting competition or license application.
